

Liverpool City Region Careers Hub and Enterprise Advisor Network School Feedback Form

The Careers and Enterprise Company will also be sending a feedback form to all Hub/EAN Schools in June and we would encourage you to complete the form.

We consider it essential that the Hub/EAN responds to the needs of the schools rather than imposing work on the schools. Therefore, we would be keen to hear your views on the following to help us plan for next year.

1. The overall support received from the LCR Careers Hub/EAN since September 2018 has had the following impact on CEIAG and progress towards achieving the Gatsby Benchmarks in my school:

An extremely negative impact	A negative impact	No impact	A positive impact	An extremely positive impact
------------------------------	-------------------	-----------	-------------------	------------------------------

2. The support received from the school's Enterprise Coordinator has had the following impact on CEIAG and progress towards achieving the Gatsby Benchmarks in my school:

An extremely negative impact	A negative impact	No impact	A positive impact	An extremely positive impact
------------------------------	-------------------	-----------	-------------------	------------------------------

3. Please add any suggestions you may have for how the work with your EC could be improved.

The support we have received from Sally Beevers and Gill Walsh, based at the LCR, has been excellent. They are always available on the end of the telephone and Sally's visits to school have been a useful tool for us to reflect and further enhance our practice, Resources and information have also been shared, again impacting positively upon provision. They have also been especially helpful in assisting us to resolve the issues we have, as a school, been experiencing with the Tracker aspect of the CEC Evaluation & Planning Toolkit

4. The support received from the school's Enterprise Advisor has had the following impact on CEIAG and progress towards achieving the Gatsby Benchmarks in my school:

An extremely negative impact	A negative impact	No impact	A positive impact	An extremely positive impact
------------------------------	-------------------	-----------	-------------------	------------------------------

5. Please add any suggestions you may have for how the work with your EA could be improved.

We have struggled to set up a meeting with the Enterprise Advisor. Our first advisor was unable to assist, due to pressures of work. Our latest EA has, because of illness and other commitments, only made one initial meeting with the school, brokered by Sally Beevers

6. Which (if any) of the Gatsby Benchmarks has the Careers Hub/EAN helped your school to move forward on? (Please tick all that apply)

Gatsby Benchmark	Strongly disagree	Disagree	Neither agree or disagree	Agree	Strongly agree	Unsure
1. Stable careers programme				X		
2. Learning from LMI					X	
3. Addressing the needs of each pupil				X		
4. Linking curriculum to careers				X		
5. Encounters with employers					X	
6. Experiences of workplaces				X		
7. Encounters with FE and HE					X	
8. Personal guidance				X		

7. What, in particular, is better now than at the start of the academic year as a result of your engagement with the Careers Hub/EAN?

The support from Sally Beevers and Gill Walsh has enabled us to reflect upon current practice and in particular develop: online tracking tools, effective evaluation, and ways to strengthen links with employers (through Wirral Chamber). In addition, they have enabled us to improve our tracking of individual pupils' provision and our work with HEIs (being 11-16, this was in need of development).

8. What are your priorities for the next academic year 2019-20?

Further development of –

- curriculum provision
- addressing / intervening with specific pupils at risk of NEET,
- engaging more with employers, in terms of post-16 training providers

9. Which external providers have you worked with? Please specify where possible which Benchmarks this has impacted and your level of satisfaction with the provision.

Wirral Chamber (especially the Young Chamber) have been excellent. They have undertaken assemblies with the children, and these have ranged from motivational, to exploring the local labour market. In addition, we have undertaken a number of visits to local FE providers, which we have not before in school time, with groups of children in Year 10 (often 50-70 in a group). School has also engaged with the Transformational Trust to support aspects of the CEIAG programme

10. Has your school/college experienced any of the following barriers/challenges to engaging with the Careers Hub/Enterprise Advisor Network? (please tick all that apply)

- Lack of time within school/college
- Lack of resource within school/college
- Lack of senior leadership support
- Lack of suitable Enterprise Advisor
- Being matched to an unsuitable Enterprise Advisor
- Being matched to a suitable but unresponsive Enterprise Advisor
- Poor communication from the Enterprise Coordinator
- No barriers/challenges experienced
- Other (please specify)

We have been unable to attend the hub meetings, as these are all held across the water in Liverpool... could the meetings be rotated around the City Region?

11. Please list below any suggestions you may have for how the LCR Careers Hub/EAN can support you in your progress towards achieving the Gatsby Benchmarks in your school.

Nothing from the hub – please just keep up the excellent work. We would however value an EA moving forward...

Enterprise Coordinator name **Rev LYNDON BANNON** (Assistant Headteacher – Careers Lead)

School name **WOODCHURCH HIGH SCHOOL CHURCH OF ENGLAND ACADEMY**
