Woodchurch High School

We recognise that these are challenging times for schools and students. At Shaping Futures, we have been working hard to ensure that we are still able to support your students by continuing to offer high quality, impartial information advice and guidance.

We have improved and updated all of our sessions and resources to ensure that they can be delivered virtually as well as face to face.

We have also developed resources and lessons plans so that our workshops can be delivered to your students even if we are unable to visit school.

Evidence based outreach

All of our sessions and resources follow a 'what works' approach. Following the latest research as well as feedback from schools and students we have used our wealth of experience to develop a framework of outreach support that will enable your students to:

- Understand what HE is
 - *Learn all about HE and its benefits*
- Empower them to make informed decisions
 - *Receive timely IAG to enable learners to make the right decisions for their future*
- Develop skills for HE
 - *Develop skills required to be successful in HE and beyond*

You can read more about our approach, please see the summary of our progression framework [here](#)
Have a look at some example activities please see our 3 case studies [here](#)

Your Shaping Futures contact

Your school will continue to have a linked **Higher Education Progression Adviser** (HEPA) on hand to offer support and co-ordinate all aspects of Shaping Futures delivered activities. They will be in touch frequently throughout the year to update on opportunities and to work with you to help deliver high quality IAG and outreach activities to your students.

Your linked HEPA is Kevin Hornblower

Woodchurch High School

Our commitment to you

- To provide high quality, up to date and impartial information, advice and guidance to your students
- To provide you with a comprehensive end of year school report showing how many of your students we have engaged with and how we have helped you meet Gatsby benchmarks and the CDI careers framework
- We will signpost you to a range of HE outreach activities delivered by our partner organisations directly.

How you can help us

- Provide Shaping Futures with a nominated link for our staff to contact and to help develop your bespoke programme of outreach activity
- Use our postcode checker to help identify target ward learners in your school
- Through completion of a data sharing arrangement, be willing to share with Shaping Futures non sensitive learner data that is vital to ensure we can successfully track the progression of participating learners
- Complete the below survey to help us best meet your school's needs
- Support Shaping Futures with the marketing and promotion of Shaping Futures projects and activities across the school.
